GAUTIER *Kids*

FRENCH MANUFACTURER
SINCE 1960

French manufacturer of children's bedrooms since 1960

Sixty years ago, Gautier had a mad idea: to design and manufacture bedrooms especially for children. We are proud to say that the gamble we took on day one has now become our passion and expertise.

To this day, love is what drives us forward. Love for our country, which makes us strong advocates of the made in France initiative. Love for our environment that we aim to protect. And not forgetting love for our clever, comfortable and trusted collections.

This bedroom will become a haven for your child; a place for them to dream of journeys and adventures

Welcome to Gautier.

#GautierKids

Gautier partners with Rudy Gobert, International basketball player and Ambassador of the Gautier CB Academy.

Our relationship with Rudy Gobert began in 2012, on the court at the «Cholet Basketball». And ten years later, the wonderful partnership between our brand and the basketball player has gone from strength to strength, just like Rudy's career; he is now one of the greatest basketball centres on the planet. He is also the ambassador for the CB training centre, which has been known as the Gautier Academy since 2019. The photo below shows him with the Trophée du Future won by the under-21s in 2022.

Photo credit: choletbasket@etiennelzambard

In 2022, Gautier joined forces with the Rudy's Kids Foundation to furnish several children's centres.

Our partnership with the Rudy's Kids Foundation launched by Rudy Gobert means we have been able to provide furnishings for several children's centres, thereby improving access to education and leisure. We will continue working with the Foundation for the next three years, donating furniture produced in our Vendée-based factories.
